How-To's from the Womb to the Tomb on Wealth without Get-Rich-Quick Schemes

80 Proven Ways to Become a Millionaire by Paul Damazo, published by SG&A Productions, offers 256 pages of how-to's, charts, and real-life testimonies on the reality of everyday people becoming financially free and even multimillionaires.

Damazo, an accomplished businessman, philanthropist, and inspirational speaker, walks the young novice to the experienced retiree on a journey of fearless practical steps to be debt-free and financially-stable in the shortest time possible.

Flip to any easy-to-glean page and find neatly divided charts, actual results, and action lists that can be implemented today, which come as no surprise to those who are familiar with Damazo's no-nonsense, get-it-done-now approach to life.

A few of the 20 eyebrow-raising chapters include: "College Can Be Free—For Parents," "Be Worth \$10 Million—20 Years from Your Wedding Day," "How to Quickly Become Debt-Free," and "You Can Become a Millionaire Even if You Start Late."

Shunning any hint of "get-rich-quick" or "multilevel marketing" schemes, Damazo shares his time-tested cost-saving, revenue-generating, and investment strategies with an annual average yield of 15 percent or more.

"This book is probably the best book on financial planning in existence today," says George Ogum, Ph.D., professor of finance at La Sierra University. "It takes the theory of finance and makes it easy to understand and follow with achievable results."

With his lifelong dedication to helping others, Damazo hopes this book will become an everyday user's manual for anyone with a dollar in their pocket.
